[REDACTED]
The Transfer Unit did include CG in this rotation. It was for ECAU this time. My advice would be for CG to notify [REDACTED] in the TU of his interest once he has CG's concurrence and Bassem's. Keep in mind, all future rotations will be for 90 days. The next one may cover Thanksgiving as well.

SA Bob Wright, FBI CG, called me yesterday and inquired as to why Chicago was no included for the next rotation of TDYers. He actually wants to volunteer to come back to DocEx again and do another 60 day tour. I would love to have him come back. He was assigned to me and worked very hard minding his own business. He was instrumental in creating a flow chart for the triage process. He was great. Please bring him back.

Can you help?
